### Eclipse.org Website Migration Status Update

Mike Milinkovich provided to the Board a status update on the migration of the [www.eclipse.org](http://www.eclipse.org) website to a new hardware and software infrastructure. The goal of the Eclipse Foundation is to dramatically improve the look-and-feel and capabilities of the website during 2005. The first step is to install and configure the new hardware which has been donated by HP, IBM, and Intel.

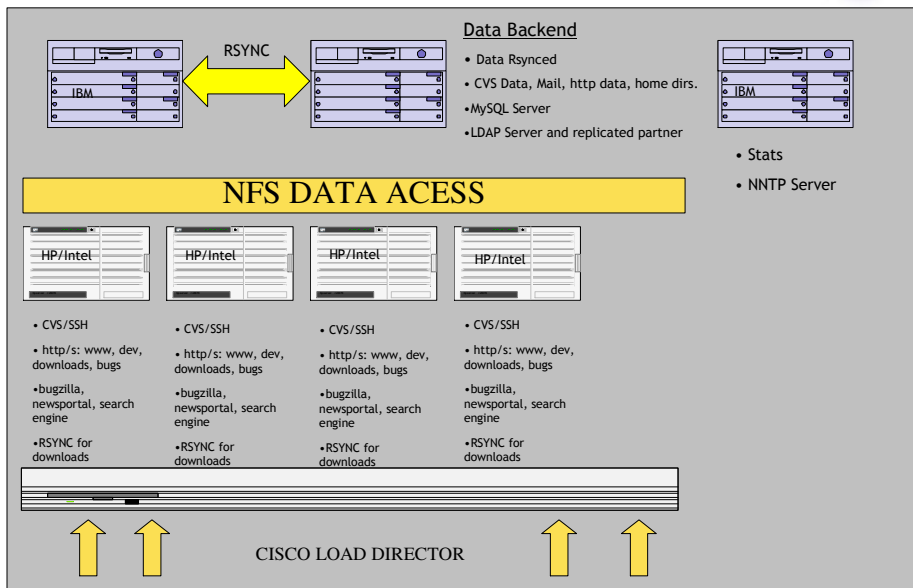

### Current Infrastructure

## Issues

- No fault tolerance or high availability
  - Every server is a single point of failure
- No scalability
  - Every server is different
  - No load balancing
- Insufficient horsepower for the work we are doing
  
- Good news: new download page has resulted in significant (>15%) bandwidth usage reduction
  - Lesson: simple changes can have a large positive effect

## New Architecture (contributed by Intel)

Planned Architecture: IBM backend, IPF II application servers

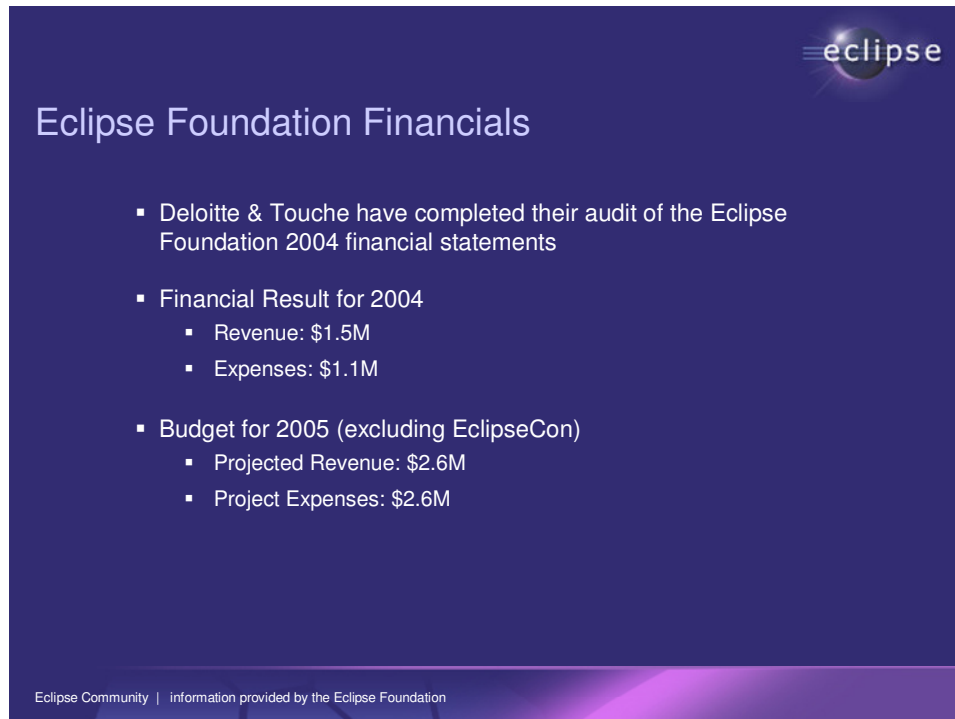

## Next Steps

- Objective is to be running on new hardware by March 31<sup>st</sup>
- Starting an EMO-led team for a new software architecture and significantly enhanced capabilities
  - Denis Roy (IT), Bjorn Freeman-Benson (committer requirements), Ian Skerrett (user and member requirements), Susan Iwai (user community requirements)
  - First deliverable is focused on defining process
    - How do we gather community requirements?
    - More importantly, how do we prioritize community requirements
    - Those who are willing to contribute work (as opposed to ideas) will go to the front of the queue

## Financial Update

Mike Milinkovich provided the Board a status update on the finances of the Foundation.

The slide features a dark blue background with the Eclipse logo in the top right corner. The title 'Eclipse Foundation Financials' is displayed in a light blue font. The content is organized into a bulleted list with three main items, each followed by sub-bullets. The text is white, providing high contrast against the dark background.

### Eclipse Foundation Financials

- Deloitte & Touche have completed their audit of the Eclipse Foundation 2004 financial statements
- Financial Result for 2004
  - Revenue: \$1.5M
  - Expenses: \$1.1M
- Budget for 2005 (excluding EclipseCon)
  - Projected Revenue: \$2.6M
  - Project Expenses: \$2.6M
