EclipseCon Update

Summary

- Call for papers open to December 18th and going well

- Call for sponsors has $89k+ in revenue and going well

- Registrations are at $20k already with almost no real marketing push (much of which comes in January)

- Some inconsistencies with historical assumptions have been found in the budget given the new venue and format for 2010. The budget is being completely vetted by the new Program Chair, Anne and Meeting Planners. (Update will be proposed to Finance Committee week of December 8th)

- We are still very confident of running a very successful conference and working hard to achieve a $50k profit.

EclipseCon Update
